OUR STRENGTHS

- 20 years of experience of company's management in organizing transportations from Europe to the CIS countries
- A prompt response to the needs and requests of the clients; communication in the language of the client
- A client-oriented approach and personalized service
- An advanced IT platform and the CRM system for an optimal document management in electronic form
- The financial viability of a private company; independence of the banks in funding; a positive cash flow
- An early and faster than average implementation of obligations to the suppliers
- The quality control system is based on the company's own business process system
- Work with reliable suppliers on a contractual basis
- The monitoring of the suppliers' liability control for all the transportations
- Social responsibility policies: payment of employees above the market average
- Anti-corruption policies implemented: refusal to cooperate with the state-owned companies from the CIS countries

FORWARDER'S LIABILITY INSURANCE

Our liability is insured by TT Club, the world's leader in the field of transport and logistics risks. Within the complementary service to our clients and in order to protect their interests, TT Club offers freight insurance against all the risks.
